

If you've got a junk that you want out of your house or off your property then you probably only need two questions answered when you call up Frankston Junk Removal Service.

How much is it going to cost and how fast can you get there?

Be prepared for disappointment. Why?

If you've got a medium to large sized haul then the junk removal company will probably want to send out a representative to review the items you need removed before giving you a quote.

This means you won't be able to get your junk taken right away and you won't know how much it's going to cost until the rep is already in your property.

That is unless you call Frankston Junk Removal Service.

There are a lot of things that set Frankston Junk Removal Service apart from our competitors including our over ten years of service in the industry, our clean uniformed and professional workers, and our twenty-foot garbage trucks which can haul away a lot more refuse than our competitors who almost always used twelve-foot truck. It is this reason we can offer such a cheap rubbish removal service.

However one of our greatest competitive advantages is the fact that we are happy to provide price quotes right over the phone. We also offer same day service. That means that you can give us a ring in the morning, immediately get a quote and have your junk picked up and out of your life by the time you go to bed.

## Cost Of Junk Removal in Frankston

---

When you give our Frankston Junk Removal Service a call we'll ask you to describe exactly what you need hauled away. As long as we get a good sense of the project we'll be able to give you an approximate quote without ever having to send someone to the home or property.

This not only saves time but also takes a lot of pressure off of you to make a decision right away. Unlike almost all of our waste removal competitors Frankston Junk Removal Service puts our pricing right out in the open.

We aren't afraid to show our pricing because we offer some of the best prices in the Junk removal industry. In fact we calculated that per cubic metre Frankston Junk Removal Service charges roughly fifteen percent less than our competitors. We aim to be cheaper than most.

Now our low prices don't mean we cut back on service. Our workers are professional, fast and will treat your property with respect. You can also rest assured that we make it a high priority to recycle as much of the materials we collect as possible and giveaway any reusable items to local charities.

So are you ready to be given an honest and accurate price quote for removing your junk?

If you absolutely can't stand to look at your junk pile for one more day ask us for same day service and we could have crews at your door today.

## Keep Mornington Peninsula Clean
