What is the difference between Tarot Card Reading, Mediums, Clairvoyants and Psychics?

Tarot card reading is the hypothetical basis for the reading of Tarot cards, a subset of cartomancy, which is the practice of using cards to gain insight into the past, present or future by posing a question to the cards. The reasoning behind this practice ranges from believing the result is guided by a spiritual force, to belief that the cards are instruments used to tap either into a collective unconscious or into the subject's own creative, brainstorming subconscious. (1)

A medium is someone who can communicate with the spirits of the deceased. They can relay messages from the dead to you.

A clairvoyant (people who see things), clairsentients (people who feel things) and clairaudients (people who hear things). The term clairvoyant refers to people who can see spirit, visions of your life, past present and future. Though many clairvoyants also feel things and hear messages of spiritual guidance. (2)

A psychic relies on their own intuitive feelings and from a connection with your soul and subconscious mind, where your future is stored.
